

Insurance claims handling (WCE)

Unit/assessment information

Insurance Claims Handling (non-UK) provides you with knowledge and understanding of the basic principles of the claims handling process which can be applied in your region.

Insurance is an international industry, with thriving and innovative markets across the globe. Some markets are well-established, and others are just emerging. All have their own ways of working that reflect the characteristics and cultures of the region. Claims handling is common to all markets and fundamental to the business of insurance, no matter where in the world it takes place.

Designed for insurance practitioners working outside the UK, this unit covers the claims handling process including notification, assessment, settlement and associated financial factors. It looks at the knowledge and skills you will need to handle claims in a professional, consistent and accurate manner. Claims handling is of such importance, it also considers claims handling within the wider context of the systems, process and functions that surround it.

Building a successful career in insurance

This course is for you if you work in insurance outside the UK or aspire for a rewarding career in insurance. Insurance Claims Handling (non-UK) counts towards achieving the Certificate in Insurance. Please note this unit can only be awarded to non-UK residents.
